

For All Interested Faculty

A Demonstration of Wireless Interactive Boards and Inking Technology

Sponsored by CELT and CTS

Presenter: Robin Green, Regional Manager of eInstruction Corporation

October 14, 2008

11:10 AM

Lanigan 37c

Please join us on October 14 at 10:30 am in Lanigan 37c for a public demonstration of Workspace software and Pad by Robin Green, from eInstruction. Faculty interested in learning about the possibilities of using "inking technology" in their teaching are strongly encouraged to attend.

Wirelessly connected to your computer and in concert with a projector, the **Interwrite Pad** and software give you the freedom to manage your lecture from anywhere in the room. The powerful software has applications in all disciplines. Come find out how it can work for you.

Space is limited. If you wish to attend this demonstration, please register by October 10 by responding to this email.

Thank you.
